

TABLE OF CONTENTS
Water Environment Association of Ontario
FINAL REPORT
Fate and Significance of Contaminants in Sewage Biosolids
Applied to Agricultural Land
Through
Literature Review and
Consultation with Stakeholder Groups

ACKNOWLEDGEMENTS		ACK-1
EXECUTIVE SUMMARY		ES-1
1. BACKGROUND		1-1
2. INTRODUCTION		2-1
2.1 Project Partners		2-1
2.2 Project Objectives and Phases		2-1
2.3 Project Consultant		2-2
2.4 Interim Report		2-2
3. STAKEHOLDER INFORMATION		3-1
3.1 Stakeholders and Expert Groups		3-1
3.2 Stakeholder and Expert Survey		3-2
4. STAKEHOLDER WORKSHOP		4-1
5. CONTAMINANTS OF CONCERN		5-1
6. LITERATURE REVIEW – BACKGROUND		6-1
6.1 Electronic Databases		6-1
6.2 Information Sources		6-1
6.3 Literature Review – Sections 7 through 15		6-2
7. LITERATURE REVIEW OF THE FATE AND EFFECTS OF HEAVY METALS IN SEWAGE BIOSOLIDS APPLIED TO AGRICULTURAL LAND		7-1
7.1 Introduction		7-1
7.2 Background Information		7-1
7.2.1 Ontario		7-1
7.2.1.1 Guideline Development		7-2
7.2.1.2 Land Application Experience		7-3

TABLE OF CONTENTS
Water Environment Association of Ontario
FINAL REPORT
Fate and Significance of Contaminants in Sewage Biosolids
Applied to Agricultural Land
Through
Literature Review and
Consultation with Stakeholder Groups

7.2.2	USA	7-4
	7.2.2.1 Risk Assessment and EPA Regulation 503	7-4
	7.2.2.2 Land Application Experience	7-7
7.2.3	European Community.....	7-7
7.3	Recent Information	7-8
7.4	Heavy Metals That Are Regulated in Ontario.....	7-9
	7.4.1 Biosolids.....	7-9
	7.4.2 Soils	7-14
	7.4.2.1 Heavy Metal Concentrations.....	7-14
	7.4.2.2 Heavy Metal Loadings	7-14
7.5	Heavy Metals That Are Not Regulated In Ontario	7-17
	7.5.1 Concentrations in Biosolids and Soils.....	7-17
	7.5.2 Potential Implications	7-22
	7.5.3 Loadings to Ontario Land	7-24
7.6	Fate	7-28
	7.6.1 Long Term Metal Availability	7-30
	7.6.2 Heavy Metal Transport	7-31
7.7	Findings and Conclusions from the Literature Review	7-32
8.	LITERATURE REVIEW OF THE FATE AND EFFECTS OF PATHOGENS IN SEWAGE BIOSOLIDS APPLIED TO AGRICULTURAL LAND	8-1
8.1	Introduction	8-1
8.2	Fate and Effects	8-1
8.3	Epidemiological Studies	8-5
8.4	Regulations	8-6
	8.4.1 Ontario	8-6
	8.4.2 United States – Environmental Protection Agency (US EPA)	8-7
	8.4.3 United Kingdom.....	8-9
	8.4.4 European Community.....	8-11
8.5	WEAO Biosolids Stakeholder Workshop – Concerns and Recommendations	8-15
8.6	Conclusion from the Literature Review	8-15

FINAL REPORT
Fate and Significance of Contaminants in Sewage Biosolids
Applied to Agricultural Land
Through
Literature Review and
Consultation with Stakeholder Groups

9.	LITERATURE REVIEW OF THE FATE AND EFFECTS OF ORGANIC COMPOUNDS IN SEWAGE BIOSOLIDS APPLIED TO AGRICULTURAL LAND	9-1
9.1	Introduction	9-1
9.2	Fate	9-1
9.3	US Perspective	9-5
9.4	Canadian Perspective	9-12
	9.4.1 Organic Contaminants in Sewage Biosolids	9-12
	9.4.2 Organic Contaminants in Agricultural Land	9-21
9.5	Regulations	9-22
9.6	Concerns Raised at the Stakeholder Workshop	9-22
9.7	Findings from the Literature Review	9-22
10.	LITERATURE REVIEW OF THE FATE AND EFFECTS OF SURFACTANTS IN SEWAGE BIOSOLIDS APPLIED TO AGRICULTURAL LAND	10-1
10.1	Introduction	10-1
10.2	Fate and Toxicology	10-1
10.3	Regulatory	10-2
10.4	Findings from the Literature Review	10-2
11.	LITERATURE REVIEW OF THE FATE AND EFFECTS OF ENDOCRINE DISRUPTORS IN SEWAGE BIOSOLIDS APPLIED TO AGRICULTURAL LAND	11-1
11.1	Introduction	11-1
11.2	Biosolids Concentrations	11-1
11.3	Concentrations in Soils	11-3
11.4	Fate	11-3
11.5	Toxicity	11-4
11.6	Regulatory Framework	11-4
11.7	Findings and Conclusions from the Literature Review	11-5

Through
Literature Review and
Consultation with Stakeholder Groups

12. LITERATURE REVIEW OF THE FATE AND EFFECTS OF DIOXINS AND FURANS IN SEWAGE BIOSOLIDS APPLIED TO AGRICULTURAL LAND	12-1
12.1 Introduction	12-1
12.2 Sewage Biosolids Concentrations	12-1
12.3 Fate	12-3
12.4 Toxicity	12-4
12.5 Guidelines	12-4
12.6 Findings from the Literature Review	12-5
13. LITERATURE REVIEW OF THE FATE AND EFFECTS OF PHARMACEUTICALS IN SEWAGE BIOSOLIDS APPLIED TO AGRICULTURAL LAND	13-1
13.1 General	13-1
13.2 Fate	13-1
13.3 Conclusion from the Literature Review	13-1
14. LITERATURE REVIEW OF THE FATE AND EFFECTS OF RADIONUCLIDES IN SEWAGE BIOSOLIDS APPLIED TO AGRICULTURAL LANDS	14-1
14.1 Introduction	14-1
14.2 Fate and Effects	14-1
14.3 Conclusion from the Literature Review	14-1
15. LITERATURE REVIEW OF THE FATE AND EFFECTS OF NITROGEN AND PHOSPHORUS IN SEWAGE BIOSOLIDS APPLIED TO LAND	15-1
15.1 Introduction	15-1
15.2 Fertilizer Value of Biosolids	15-1
15.3 Factors Influencing Soil N and P	15-2
15.3.1 Nitrogen	15-2
15.3.2 Phosphorus	15-5
15.4 Land Application of Sewage Biosolids	15-6

FINAL REPORT
Fate and Significance of Contaminants in Sewage Biosolids
Applied to Agricultural Land
Through
Literature Review and
Consultation with Stakeholder Groups

15.5 Nitrogen Management	15-7
15.5.1 International Research	15-7
15.5.2 Ontario Research	15-8
15.6 Phosphorus Management.....	15-9
15.6.1 International Research	15-9
15.6.2 Ontario Research	15-10
15.7 WEAO Questionnaire Responses.....	15-11
15.8 Findings and Conclusions from the Literature Review	15-15
16. SUMMARY OF GROUP I AND GROUP II CONTAMINANTS.....	16-1
17. SUMMARY OF RECOMMENDED ADDITIONAL STUDY.....	17-1
FOR GROUP II CONTAMINANTS OF CONCERN	
18. STUDY TERMS OF REFERENCE FOR THE	18-1
IDENTIFIED GROUP II CONTAMINANTS	
18.1 Research Recommendations	18-1
18.1.1 Pathogen Research Recommendations	18-1
18.1.2 Unregulated Metals Research Recommendation	18-1
18.1.3 Pharmaceuticals and Estrogenic Hormone Research Recommendations	18-1
18.2 Detailed Research Terms of Reference.....	18-1
18.2.1 Pathogens.....	18-1
18.2.2 Unregulated Metals	18-4
18.2.3 Pharmaceuticals and Hormones.....	18-6

APPENDICES A – D

APPENDIX A – SURVEY QUESTIONNAIRES AND RESPONSES

- I. Sewage Biosolids Stakeholders in Ontario
 - IA. Survey Cover Letter
 - IB. Survey Questionnaire
 - IC. Survey Responses From Stakeholders
- II. Sewage Biosolids Experts Outside Ontario
 - IIA. Survey Cover Letters
 - IIB. Survey Questionnaire
 - IIC. Survey Responses From Experts Outside Ontario
