

# The WEAO Student Member Program

Building Leaders for a  
Cleaner Tomorrow . . .

Preserving and enhancing  
the global water  
environment.

[www.weao.org](http://www.weao.org)

[www.wef.org](http://www.wef.org)

## What are the benefits of Student Membership?

When you join WEF as a student,  
you will gain access to the following  
services:

- Special plant tours
- Informative technical seminars
- Networking events
- Subscription to *Influents* and *Water Environment & Technology* Magazines.
- Scholarship opportunities
- WEF job bank

Low membership fee - access to  
WEAO and WEF for only US\$20.

Tour participants receive a close-up  
look at the gravity belt thickeners at  
the Woodward Avenue Wastewater  
Treatment Plant in Hamilton.

*Join WEAO . . . join the water  
quality community.*

Students and New Professionals learn  
about the practical engineering aspects of  
Small Treatment and On-Site Systems

## What is WEAO?

The Water Environment Association of  
Ontario (WEAO) is a member  
association of the Water Environment  
Federation (WEF). It is a non-profit  
technical organization consisting of  
more than 32,000 professionals  
worldwide: engineers, environmental  
scientists, planners, and operators.

*WEAO is an organization run by  
water quality professionals, for  
the public good.*

## Why Start a Student Chapter?

- Meet other students interested in environmental engineering and science.
- Organize your own speaker events and tours.
- Build a forum for meeting water quality professionals in your community.
- Scholarship Opportunities
- Gain valuable leadership experience

***WEAO is a chance to meet water quality professionals . . . people doing the job you want!***

## What does WEAO do?

- We deliver high quality service to our members
- We promote and advance the water environment industry
- We provide a forum for our members to interact for educational, business, social, and professional advancement.
- We benefit society by enhancing public understanding and promoting sound policy.

***A Student Chapter is a way to meet students interested in water and the environment.***

Andrew Hellebust, of EcoWerks Technologies, discusses a "Living Machine" wastewater treatment system for the University of Toronto Student Chapter.

## How Can I Get Involved?

Your interest in WEAO is a great way to learn about how to protect the water environment. As a student, you can join in now!

- Attend tours and seminars
- Join WEAO
- Help start a student chapter
- Contact WEAO through the website.

***Learn and make connections with future employers - and have fun doing it!***
